PROJECT EXPERIENCE

alinaivenko.com , Link Commercial project. Role: Frontend Developer [React, Formik, Axios]
Led the design and development of a dynamic React.js-based website, implementing intuitive navigation with React Router, integrating client bookings, and secure payment processing. Collaborated on a visually appealing, brand-aligned design and optimized for a responsive user experience across devices.

TaskPro , Link   Team project. Role: Frontend Developer   [React, Redux, DND]
Led the implementation of Redux architecture for a project management platform. Collaborated on optimizing Redux actions and reducers for enhanced performance, playing a crucial role in troubleshooting state-related issues.

Phonebook , Link Individual project. Role: Fullstack Developer [React, Redux, Formik, MongoDB, Node.js]
Developed a dynamic and responsive application, implementing seamless state management, efficient form handling, and a theme switch for enhanced user customization. Successfully integrated secure user authentication and registration features on the backend using Node.js.
